I find it hard to believe that the Michigan Supreme Court would consider taking steps that would change the law by denying Michigan asbestos disease victims their right to a jury trial. I am a victim of asbestosis. Clearly caused by products of companies doing business in Michigan. The leaders of these companies clearly knew the dangers of using asbestos. I am very short of breath. In what should be my best years I am virtually confined to my bed for most of every day. I am forced to hire people to do my every day tasks. Again, I find it hard to understand that the Michigan Supreme Court would consider barring me from obtaining from these corporations sufficient monies to cover my basic expenses. Regards, James D. Carey, Lincoln
